Hi Douglas,

Thanks for putting this case study together. I think it will generate a lot of discussions on some of the issues we need further guidance on at the national level.

I looked at the list of questions at the end of page 2 of the document. They are very comprehensive in terms of helping the "future use" discussions.

## Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

I'll request a room with projector. Don't know how feasible that could be.

You may send your document to the larger group for review in advance of the discussions.

Best,

Joe.

DELIBERATIVE/NOT FOR DISTRIBUTION OUTSIDE EPA

Joe: attached is a draft document for our closed AE session next week at GWPC.

Our understanding is that we will have 30 minutes to present and lead a discussion on future use using this pending AE request as a case study. Within this time, we hope to address at least one of the questions included at the end of this document.

Please let us know if you have any comments and whether you wish us to circulate this document to the other Regional participants prior to our meeting. Ideally, we would like both a conference phone and projector, but can manage with just handouts if necessary.

Finally, are we still planning to meet next Tuesday afternoon for this session?

Thanks,

Douglas K. Minter
